16th June 2016

Dear Parent or Carer

You will recall that during the consultation process regarding the school's co-ed application during November and December 2015 you were asked for your preference regarding the school's new name.

The most popular choice was Holcombe Grammar School and governors have agreed that this will be the new name of the school. Holcombe is, of course, the name of the old house around which the school is built so the name itself is not new, rather a return to the original.

During the course of the next year you will therefore start to see the name 'Holcombe' used more and more by the school so that by September 2017 all documents and school-related items will bear the name Holcombe.

Regarding the co-ed application no decision has yet been received from the DFE. I will notify you of this at the earliest opportunity.

Yours sincerely

Juliet Diaz
Principal
